

Of successful experience in the manufacture of Watch Movements and Watch Cases, and with the mechanical knowledge gained in the construction of special machinery and tools necessary for the manufacture of watches, we have reason to believe that no factory in the world is better able to produce a bicycle of superior design and workmanship. Our machinery is the finest and most modern in existence. Our workmen are trained to a greater degree of accuracy than is usually observed in any bicycle factory. Where is the bicycle factory that is capable of producing a machine made equal to a Duober-Hampden Watch or machinery required to manufacture same?

These Bicycles, as well as a full line of the Duober-Hampden Watches, can be seen at

## HAIL COLUMBIA!

How the Hailstones Did Hurt Down Yesterday Afternoon.

The "eldest inhabitant" is knocked out again, for no living man ever before saw such hailstones in this latitude as those which beat a tattoo on the tin roofs yesterday afternoon.

Between 3 and 4 o'clock there was a heavy shower, which wound up with hail.

Some of the hailstones that fell in this city were as large as hen eggs—and this is no campaign lie.

Mr. Henry W. Ray the Druggist captured one and after he had handled it for nearly a minute it then weighed 720 grains avoirdupois.

One nearly as large as a walnut crashed through a skylight at Tuxedo office—and its passage to the cellar was only impeded by a stout yellow pine floor.

According to the standard of the local ice manufacturers, many of the prizes were of the full nickel size.

So far as learned no serious injury was done in the city, but if the fall extended to the county it must have done great damage to growing crops.

## MAKE TRAVEL FREE

FISCAL COURT TAKES  
ANOTHER STEP.Turnpike Companies Submit  
Their Offers—What It Will  
Cost—Election Ordered.

The Fiscal Court met yesterday to receive propositions from the turnpike companies of Mason county as to what they would take for that portion of their roads lying in the county with a view to their purchase by the county and making travel free.

The turnpike owners came forward with straight-out business-like propositions, which will furnish a basis upon which the Court can act.

The Mayville and Mt. Sterling Company has 12 miles in Mason, in which the county owns \$2,000 in stock. It offers to sell this part of its road for \$45,000, at \$1,500 per mile. The county has \$5,500 stock in this road.

The Mason and Bracken, with 12 1/2 miles of road, offers it at \$2,750 per mile, including two gatehouses, all franchises and 84 acres of quarries. The county has \$3,000 stock in this road.

The Mayville, Orangeburg and Mt. Carmel Company has 12 miles, which it offers at \$1,500 per mile. The county has \$5,500 stock in this road.

The Lewis and Mason Company has 13 miles in Mason which it offers in a lump at \$10,000, providing the county will donate it \$17,800 and the city \$2,900 of stock now owned in it.

The Mayville and Lexington offered its 16 1/2 miles at \$4,000 per mile—\$66,000 in all—including the quarries only.

The Bardie Turnpike Company, 9 miles long, offers its road for \$4,000. The county owns \$2,500 in this road.

The Murphysville Company offers its 14 1/2 miles for \$1,900, including two gatehouses, or \$1,200 without the gatehouses.

The purpose in getting these propositions was simply to afford a basis on which the Court might submit to the people a proposition to vote bonds for the purchase of the entire lot of roads.

From the above figures it will require—  
Mayville and Mt. Carmel..... \$18,000  
Mayville and Mt. Sterling..... \$45,000  
Mason and Bracken..... \$27,500  
Lewis and Mason..... \$15,000  
Mayville and Lexington..... \$66,000  
Bardie..... \$4,000  
Murphysville..... \$1,200  
Total..... \$170,700

The reports were respectfully received and filed.

W. C. Pelham, C. E., reported that two bridges on the Hill City pike were in unsafe condition, and the matter was referred to the Turnpike Commissioners for action.

It was ordered that the Sheriff collect the 30 cents on the \$100 for free turnpikes, levied at the April term of the Court, 1895, and the levy of 1896 was decided.

The proposition of the Murphysville Turnpike Company was withdrawn for the time being.

## ELECTION ORDERED.

The Court then passed an order directing that polls be opened at the election to be held in November next, and that a vote be taken on the proposition to issue bonds for the purchase of the several turnpikes of the county, that they may be made free for the traveling public.

Specifications were then adopted for the three-mile extension of the Hill City pike.

The Turnpike Commissioners were authorized to purchase a steam rock crusher and such other implements as are

needed to build and repair the turnpikes of the county.

An iron bridge was ordered built across the North Fork on the Hill City pike extension.

The Court voted itself three days pay—And then adjourned.

## YESTERDAY'S GAME.

Lexington Gave the Kernels a Ner, Clean Shoutout.

The game yesterday afternoon at Lexington was the last one of a series of two to be played in that city by the Mayville Club.

And in this game our boys found the second coat of kaisomine of the season. Conover administered it in great chunks—larger, in fact, than the hailstones that fell here.

Not a single Kernel was allowed to score during the entire game.

But it wasn't Conover's fault, as he is only one of those fellows who are fortunate enough to go against a club that does not care to bat the ball, and that was Mayville's fix yesterday—they wouldn't hit.

Jimmie Cule was the twirler for the Mayvilles, and the score showed that he pitched a good game.

After the hats had been gathered together, the mask, gloves and chest protector had been stored away in the trunk and the ball adjusted, reading "Knoxville." Captain Tanner happened to glance at the tally-board, and here's what he saw—

Lexington, 4.

Mayville, 0 0 0 0 0 0 0 0.

And then, to the tune of "God Save the Queen," he marched the boys to the hotel, where they talked it over and finally concluded they needed another hack ride.

Today they play at Knoxville, and Newton will be the boy who will put 'em over for the Kernels.

Shepard, the Gibsonburg, O., pitcher, catcher, first baseman, second baseman, shortstop, third baseman, left fielder, center fielder, right fielder and Umpire will join the Kernels at Knoxville tonight; and tomorrow he will show the Indiana a few new tricks in the game. He is a

For Paris Green that will kill and not fatten insects go to Conoweth's. Special Sale on Infants', Children's and Misses' Bippers this week at the Progress Shoe Store.

The Tuckahoe Turnpike Company last year received \$500.96 and paid out \$390.61, leaving a balance of \$110.35.

We were yesterday afternoon visited by a hail-storm, and some of the hailstones were almost as large as a nickel's worth of ice.

Mrs. Rhodie Noss, of this place, was taken in the night with cramping pains and the next day diarrhoea set in. She took half a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy—Mrs. Mary Shibley, Sidney, Mich. For sale by J. James Wood, Druggist.

Editor Ledger: Today, Monday, has been recreation day, and everyone has put in the time as suits them best. Some play croquet, some go bicycling, some go fishing, but most of them seek pretty close to their tents.

We do not suppose the Democratic Free Silvermen will longer deny that Mr. Bryan is the Populist nominee for President.

BOTH the Socialists and the Anarchists are to hold conventions in Europe. To which The Courier-Journal cruelly adds: "If they were to be held in this country BRYAN would receive two more nominations."

THE LEDGER takes pleasure in reproducing from The Owingsville Outlook a most exhaustive and instructive article setting forth that paper's consistency in refusing to support the nominees of the no-Democratic Convention held at Chicago. It is a representative Democratic declaration.

MR. BRYAN says those in favor of running this Government on the European plan should go to the Republican party. Mr. BRYAN seems to forget that this is just the present trouble—that this Government has been running for nearly four years "on the European plan,"—sending all our money across the sea to pay for goods that Europe makes while American factories are closed and American workmen are idle.

THERE is a law in Ohio which prohibits a fusion ticket—that is, the name candidates' name cannot be printed on two tickets. This is giving some concern to our Democratic friends over there, who want "Wing Jim" BRYAN's name printed on both the Democratic and the Populist ballots. Phaw; there's no use worrying four seconds about that matter. MCKINLEY will carry Ohio by such a majority that Mr. O'BRYAN will know he's been "crucified on a cross of silver."

# DEMOCRATS DO NOT "BOLT" DEMOCRACY.

## The True Democratic Faith Ably Set Forth, With Some Valuable Political and Financial History.

Outgoing Outlook.  
DEMOCRACY.

The only way to uphold Democracy is for those who believe in the principles of Democracy to battle for those principles, even if they are compelled to oppose an organization that has usurped the name of the former Democratic party and revolutionized its principles. The real bolters against Democracy are that majority at the Chicago Convention who substituted for the time honored principles of Jefferson, Jackson, Tilden and Cleveland the paternalistic, communitarian and socialist principles of Populism and the anarchistic principles of Algeid.

The Democratic party has always been a means to the end that good Government on Democratic principles should prevail. No real Democrat is bound in honor, allegiance or any other way to support nominees and a platform that are not in accordance with the essential principles of historic Democracy.

Now the questions arise, Is the Chicago platform a declaration of real Democratic principles? and are Bryan and Sewell real Democrats of the standard of Jefferson, Jackson, Tilden and Cleveland? We answer, They are not.

The silverites exultantly proclaim they have revolutionized the Democratic party. TO REVOLUTIONIZE means to CHANGE COMPLETELY. Therefore the silverites have COMPLETELY CHANGED THE DEMOCRATIC PARTY, and consequently the organization effected at Chicago is no longer the Democratic party as we have known and loved, as you have known and loved, and neither of us who are Democrats on profound principle are bound to give either the Chicago platform or ticket any support.

The right of a majority to rule in a political party is limited strictly within the bounds of the principles of that party. Else it could be claimed that a Democrat should support a Republican platform and Republican nominees simply because a majority of those who had formerly acted with the Democratic party had changed their principles and revolutionized the Democratic party to a Republican declaration of principles and nominated candidates in accordance therewith. While the silverite majority has not done that it has done worse from a real Democratic standpoint, for it has adopted a platform that, in regard to most of the great issues of the day, declares for Populism 10 to 1 free coinage of silver, Populist prohibition of the right to make contracts payable in gold, Populist opposition to the maintenance of specie payments, Populist insistence of all paper currency by the Federal Government, Populist control of the railroads, anarchistic opposition to Federal interference within the domain of the Constitution and Federal Statutes to put down gold like the Debs insurrection, and undemocratic wasteful extravagance in "improving" waterways.

The greatest of all issues at the present time is that of the money of the people. The free, unlimited and independent coinage of silver at the ratio of 16 to 1 (or making a silver dollar weigh 16 times as much as a gold dollar) is not Democratic doctrine. Jefferson taught that the only right, just and honest ratio of coinage of gold and silver was the commercial ratio. In his day a dollar's worth of silver weighed 15 1/2 times as much as a dollar's worth of gold. Were Jefferson alive today he would strenuously insist that if silver is to be admitted to free, unlimited and independent coinage it shall be coined at the commercial ratio of about 15 to 1. But Jefferson was one of the most progressive Americans of his day. From the history and experience of the past he evolved principles and policies for the future and was so radical in his views that for a while he was distrusted as a flighty and unstable revolutionary by many of his conservative contemporaries. As sure as he learned the world's experience of the impossibility of maintaining a double standard of money composed of two different metals, no one would have listened to that he could be only one standard and that should be gold, the standard of all the great civilized nations. His successors did finally establish in fact the gold standard and it had continued for many years prior to the year 1873 as the standard of real

money, although the paper issues of the War era gave an apparent (not real) expansion of values to commodities, but which valued in gold were not comparatively high priced. In reality commodities were measured by the value of the depreciated paper money, which in its turn was measured by its value in gold, so that the gold standard was at the bottom of valuation after all.

In 1873, silver at 16 to 1 was at a premium in gold. Except a few millions of small change hid away in banks and by the people in their homes, there was no silver money in this Nation. Up to that time there had been coined since the establishment of the Nation only about eight million silver dollars and eighty million dollars in fractional coins. After

the silverite majority had changed their principles and revolutionized the Democratic party to a Republican declaration of principles and nominated candidates in accordance therewith. While the silverite majority has not done that it has done worse from a real Democratic standpoint, for it has adopted a platform that, in regard to most of the great issues of the day, declares for Populism 10 to 1 free coinage of silver, Populist prohibition of the right to make contracts payable in gold, Populist opposition to the maintenance of specie payments, Populist insistence of all paper currency by the Federal Government, Populist control of the railroads, anarchistic opposition to Federal interference within the domain of the Constitution and Federal Statutes to put down gold like the Debs insurrection, and undemocratic wasteful extravagance in "improving" waterways.

What were the facts as to the prosperity of the people since 1873? These when called to mind are within the recollection of all who were old enough to know them. The Jay Cooke panic of 1873 had not the remotest thing to do with silver coinage. It was a Wall street speculators' break, to which are liable all gamblers, of all sorts whatsoever, and to which all other people who mismanage their affairs are subject. The Cooke panic subsided after a while. The resumption of specie payments came in 1875. When it was seen by the people that specie payments were assured the small premium on gold valued in paper currency disappeared. When the paper was for currency found to be worth as much gold the people preferred the paper as more easily handled. They began such an era of prosperity as scarcely has been known. Let any one, from the weather farmer to the small and the merchant, tax his memory and say if he didn't make more money and enjoy more of the comforts and ease luxuries of life between 1875 and 1890 than he ever did before or since that time. We all know that during these twenty years, and especially the last ten years of them,

people bought land and paid for it out of the profits of the land's produce; many others bought land and were in a fair way to pay for it until the speculative panic came and was fastened down by this agitation for silverism. While the past ten years we all know that the rich Bluegrass land of Flat Creek and Shaysburg vicinity has held at \$135 to \$150 per acre in gold. When it is over worth more than half that much in gold before the so-called "crime of 1873?" People are so forgetful, and they allow themselves to be led against their true interests by demagogues and ill informed young ambitious politicians, and men so blinded by political prejudice that they can't judge the right in this instance, though entirely honest they be.

The silverite argument starts with the promise not denied by anybody: "Something is wrong, you must admit." Of course something is wrong, and that wrong is in the brains of the silverites, who by their agitation for free silver coinage, have caused everybody to be afraid to move in large business enterprises for fear that a revolution in the value of money and commodities or a civil war will beggar them. They prefer to hold on to what property they have without present hopes of increase, to the only alternative of risking it where they will not only get no profit, but are liable to lose half at least and probably more of the principal.

The silverites contend that the people need more money. A free coinage law will not give them more money. There is already larger per capita circulation in the United States than in any other Nation except France, and about one third of the United States' per capita is gold, which answers all the purposes of circulation, and which before this agitation could have been secured by anybody, dollar for dollar, in exchange for other currency by paying the charges of transportation from the city banks. This gold will be surely and instantly driven out of circulation entirely by a free silver law. Then the remaining two-thirds per capita will be valued by the silver standard and will be worth only one-half. So instead of more money there will be only one-third as much, measured by its purchasing power. To supply this billion dollars deficiency of currency with silver dollars would take several years at the lowest calculation of the most sanguine who calculates and doesn't merely guess. But relief will be needed quickly. The only alternative will be the issuance of legal tender silver certificates and greenbacks, the latter worth not their face value, but only what the market establishes, like the other greenbacks during the Civil War, which got down as low as forty cents on the dollar, and the more greenbacks there are issued the cheaper they will become. Making such paper issues legal tender will enable those who get them to pay debts contracted in money gold as gold; but to lose must the creditor who has to take them feel that he had been wronged by his Government? Cheap and almost worthless paper money has been the bane of the world in different eras treated of in history, and it is monumental folly for a people in the light of experience and history to help drive in the reason The Outlook is opposed to silverism is because a gentleman who helps make the paper has a lot of Federal Government bonds. There is not a word of truth in it. He does not own a bond, never owned one, and, to make it more plainly, never saw a Federal Government bond in his life. His interests and those of all the Outlook people are just the same in kind if not in degree as those of the day-laborer, the farmer and every other person who works for a living in any way honorable. Our interests, as we believe, are best subserved by a Government guaranteeing us freedom, justice, protection to our property, equality before the law, fair treatment always, and a dollar that when earned shall be worth a dollar, and when owed shall be paid in a 100-cent dollar. We have got no better rights than anybody else, and don't want any rights better than anybody else and before the law.

# At Ruggles Campgrounds!

The meetings on these beautiful and much improved grounds will be held every night, July 25th and closing August 1st. Entertainment will be provided. Rev. A. B. Leonard of Ashland, Rev. Thomas Hanford of Cortland and Rev. A. B. Leonard of Cortland and the officers of the Congregational and Ashland Districts are expected to be present. The program will be charge of Prof. Crabbe of Ashland, assisted by a splendid choir, which is an assurance that the music will be all that could be desired. The Tavernmaster has been engaged, a 10-room house has been built with porches all around, making accommodations for all new comers, the grounds are beautiful, and best of all there is an abundance of pure water—very large cisterns, three wells out of which is 100 feet deep, the water of which we have had analyzed, and it contains the following minerals: Sodium, Potassium, Magnesium, Sodium, and Potassium; insoluble salts, 1.64 to the liter; sodium of calcium carbonate with traces of iron.

**SPECIAL DAYS.**  
Barnyard and Ruggles Days July 25th and 26th. Ruggles days of the District will be present.
